PROSPERIGUIDE: MEET THE EASY-TO-ADMINISTER, HIGH-VALUE EMPLOYEE BENEFIT

It's a fact: managing personal finances remains the leading source of stress among Canadians.

As every employer knows, financial worry leads to less focused and less productive employees. That's why high-performing companies offer their employees ProsperiGuide: a one-stop, personal finance e-tool designed to bolster financial well-being. By keeping employees engaged in their work instead of their finances, ProsperiGuide simply makes good business sense.

Give employees financial tools to plan for today, tomorrow and the future

Created by the financial planning experts at T.E.Wealth, ProsperiGuide provides employees with the help they need to make sound, informed financial decisions and plan appropriately for the future.

Employee financial education is not only a benefit with high perceived value; it also fulfills the responsibilities that sponsors of registered savings plans owe to their members. ProsperiGuide is a robust tool for guiding members through their asset accumulation years and preparing for the payout phase by analyzing needs, comparing products and identifying priorities.
